# About Tenino

## **PLACES OF INTEREST**

### **Tenino Depot Museum**

The sandstone building housing the museum was built in 1914 as a Northern Pacific railway depot and was active until after WWII. On the main line between Seattle and Portland, eight or nine trains daily stopped here at the height of train travel.

### **Mill Lane Winery**

Enjoy a fantastic selection of hand crafted, small batch wines any time! Fruit, white, mulled, specialty and more wines are offered in this family-owned and operated winery.

## **FAST FACTS**

- Part of Thurston county, WA
- Became incorporated on July 24, 1906
- Total area is 1.46 square miles

## **NEIGHBORS**

Olympia (North)  
Lakewood (Northeast)  
Eatonville (East)  
Centralia (South)  
Rochester (West)  
Elma (Northwest)

# SEPTIC SYSTEM INFO

Several counties in Washington state use septic systems for waste. This guide will help you understand how the system works.

## On Site Sewage Systems

An onsite sewage system (OSS) is also known as a septic system. OSS are designed to help prevent the spread of illness and disease by collecting, treating and dispersing wastewater from a home or business into the native soils near a home or business.

An OSS is typically made up of two or more components, or pieces, linked together with pipes. There are two general types of OSS available for use in Washington State; the unique site conditions for each individual lot (e.g., soil type and depth, size of lot, distance to surface waters and wells, etc.) determine which type of OSS can be installed. Different combinations of components may be used to best suit site conditions and owner preferences.

## How do Septic Tanks Work?

Typically, the septic tank is a large, buried, rectangular or cylindrical container made of concrete, fiberglass, or polyethylene. Standard sizes range from 1,000 to 1,500 gallons.

In Washington State, septic tanks are required to have **two** compartments, with access lids to each compartment for servicing and pumping. For most types of OSS, the septic tank is the core component. All the wastewater from a home or business is routed to the septic tank for primary treatment. Primary treatment is a filtering process whereby heavy solids can settle-out, and floating solids are trapped, due to baffles situated at the entrance and exit to each compartment of the septic tank.

The result is clarified effluent that is more easily absorbed by native soils in the drainfield area. Adequate primary treatment is essential to protect drainfields and allow them to function properly.

## Drainfields

The drainfield is a network of perforated pipes (or "laterals") laid in gravel-filled trenches or beds. After solids settle in the septic tank, the liquid wastewater (or effluent) is discharged, either by gravity or pressure, to an absorption field, also known as a drainfield or leachfield (see diagram of septic system/drainfield layout). NOTE: In most gravity systems the wastewater first flows into a distribution box (d-box) or tee, which then disburses the effluent equally among the trenches in the drainfield, which is where the final treatment takes place.

Effluent trickles out of the pipes, through the gravel layer, and into the soil where further treatment occurs. The soil filters the wastewater as it passes (or "percolates") through the pore spaces and the soil microbes treat it before it eventually enters the groundwater. These processes work best where the soil is somewhat dry, permeable, and contains plenty of oxygen for several feet below the drainfield.

The drainfield is generally located in a stretch of lawn in the back or side yard of a property. The size and type of drainfield depends on the estimated daily wastewater flow and local soil conditions.

The soil below the drainfield provides the final treatment and disposal of the septic tank effluent. After the wastewater has passed into the soil, organisms in the soil treat the effluent before it percolates downward and outward, eventually entering ground or surface water. The type of soil also impacts the effectiveness of the drainfield; for instance, clay soils may be too tight to allow much wastewater to pass through and gravelly soil may be too coarse to provide much treatment.

Every new home or building served by a septic system is required to have a designated replacement or reserve area. This is a designated area suitable for a new drainfield and must be treated in the same manner as your existing drainfield. (A reserve area should have been designated as part of the permit process for any sewage system installed since 1980.)

Once a septic system has failed, it is too late to solve the problem by pumping your tank. A new drainfield will have to be installed at a different location.

## Maintaining Your Septic System

### Septic Tanks

Septic tanks need to be inspected at least every 3 years and pumped as needed to prevent solids from damaging the drainfield. Solids and scum not decomposed remain in the tank. If not removed, solids or scum may eventually overflow into the drainfield and damage it. Additive products are not necessary and may harm the system. Access to the tank is important for regular pumping & maintenance.

### Drainfields

- Route or direct surface and ground water away from the system to prevent flooding
- Limit use of chemicals and garbage disposals
- Prevent physical damage from driving, parking, building, burning, livestock pasturing and sprinkler systems

### Protecting Your Sewage System

- Watch what goes down the drains
  - Keep grease, hair, and food scraps from going down the drain
  - Don't flush diapers, plastics, paper towels, cigarettes, personal hygiene products or kitty litter down the toilet
  - Don't use a garbage disposal
  - Don't use automatic toilet bowl cleaner or deodorizers
  - Don't use excessively strong drain cleaners or other chemicals
- Use concentrated liquid detergents
  - Don't overuse detergents
  - Minimize use of liquid fabric softeners
  - Fillers in some powdered detergents can clog pipes
- Don't drown the drainfield
  - Fix leaky fixtures and toilets
  - Conserve water
  - Divert surface waters and downspouts away from the drainfield

## Locating Your Septic System

Washington state counties keep records of Septic Information (also called "As-Builts"). You can find these through the county's website (usually with the assessor's/treasurer's/auditor's website) or on the public health website for your county.

If you are unsure or records aren't available, you can visit the [Washington State Department of health website](#) and find more information there.

# ROAD MAINTENANCE AGREEMENTS

Your property may have a recorded “Road Maintenance Agreement” attached to it.  
So, what exactly is a road maintenance agreement?

**Road Maintenance Agreements (RMAs) are applied to private roads; meaning they are owned by individuals, not the government. They are typically called “Residential Roads,” and can be owned and maintained by a Homeowner’s Association.**

**RMAs are good things to have in place if you share a common access with one or more properties. Sometimes the only access to some properties (especially rural areas) is a private easement road from a public right of way; which means the responsibility of the road maintenance falls on the people who have the right to use the road.**

**A Road Maintenance Agreement will generally contain these items:**

- **Legal description of all properties who have a right to use the road**
- **How the costs for repairs will be incurred by the parties**
- **Emergency repairs and the consequences for non-participation in the maintenance.**

## What do they look like?

In your Title Commitment, in Schedule B Part 2, under “Special Exceptions,” you will see a section containing the information about the RMA. The Auditor File Number will let you view the recorded document in the county’s records. You can click the link or visit the county’s website to see the document.

### **ROAD MAINTENANCE AGREEMENT.**

Between: Company A LTD, a Washington corporation.

Dated: September 28, 1990.

Recorded: September 28, 1990.

Auditor's File No.: 123456

The Road Maintenance Agreement will have all the details of the Agreement, including a map, all properties affected by the RMA, and how any dues for road maintenance are paid.

# WELCOME!

# Washington State Ferries

<https://wsdot.wa.gov/ferries>

## Tips for a Great Crossing

- Allow extra time for boarding (minimum of 20 minutes) especially in summer when ferries are often overfull
- Check the website for current schedules—it varies according to the season or holiday traffic
- Use an ORCA Card, PugetPass, or Wave2Go to streamline your ticket purchasing
- Purchase tickets in advance via online or at a kiosk

*\*Vendors are subject to change without notice.*

# WELCOME!

## INTERCITY TRANSIT

<https://www.intercitytransit.com/>

# INTERcity TRANSIT

Intercity Transit in Thurston County offers several methods of transportation—Buses, vanpools and Dial-A-Lift.

### **Buses**

Check out the Intercity Transit Bus Routes at <https://www.intercitytransit.com/bus/system-map>.

As part of Intercity Transit's commitment to the community after the November 2018 passage of Intercity Transit Proposition 1, the Intercity Transit Authority (Authority) explored ways to make collecting fares easier and faster, to reduce delays and to simplify access for more riders. This was one of the community-identified priorities that resulted from our two-year public engagement process, IT Road Trip.

On December 4, 2019, the Authority approved implementation of a five-year "zero-fare" demonstration project. The project went into effect on January 1, 2020. This means that bus and Dial-A-Lift passengers will not pay fares to use the services during the demonstration.

Learn more about zero-fare service and how the Intercity Transit Authority reached this decision [here](#).

### **Vanpool**

Vanpool is offered throughout Thurston county and allows groups of people to share a ride. This is similar to a carpool, but it's operated on a larger scale with a provided van. Find a vanpool, start a vanpool or find out more at

<https://www.intercitytransit.com/vanpool>

### **Dial-A-Lift**

Dial-A-Lift is a door-to-door, shared ride public transportation service for people with disabilities that prevent them from using our fixed route bus service. We offer Dial-A-Lift service where and when fixed route buses operate.

Learn more about it [here](#).

### **Plan Your Trip**

# THURSTON COUNTY FARMERS MARKETS

## OLYMPIA FARMERS MARKET

January-March: Every Saturday

April-October: Thursday-Sunday

November-December: Saturdays & Sundays

The Olympia Farmers Market is one of the only vendor-owned and operated farmers markets in The State of Washington. The market is governed by a volunteer board of directors comprised of member-vendors and is funded primarily through vendor fees. With over 100 vendors, an estimated 400,000 visitors per year, The Olympia Farmers Market is a bustling marketplace. Truly local, our vendors grow, make or produce their items, hailing from Thurston, Mason, Lewis and Grays Harbor Counties. We have three distinct seasons, progressing from one day per week in January to four days per week during the height of our season. The market is open year-round, more than 150 days per year, rain or shine!

700 N Capitol Way N, Olympia

<https://www.olympiafarmersmarket.com/>

## TUMWATER FARMERS MARKET

May-September; Every Wednesday 11am-2pm

More than 20 vendors are ready to welcome you at the Tumwater Town Center Farmers Market. Relax and enjoy lunch alfresco. Offerings include authentic Hungarian food, vegetarian wraps, Thai, or some of the best barbecue anywhere. Or have some pie and fresh roasted coffee. Then choose some fresh picked produce, a box of berries, some cheese, and a beautiful bunch of flowers. You'll be glad you came! Corner of Capitol Blvd and Israel Rd.

<https://www.tumwaterfarmersmarket.org/>

## YELM FARMERS MARKET

May-October; Every Saturday 10am-3pm

On Memorial Day weekend, 2012, the Yelm Farmers Market opened for business on 3rd Street beside the city park. The season was a huge success with an average of 400-500 patrons visiting the market each week. The market has over 20 vendors including farmers, artisans, bakers, beekeepers, leatherworkers and much more plus a thriving children's program and special events. Every dollar you spend contributes to a strong local economy and a healthy food network in our community.

# THURSTON COUNTY GOLF COURSES

## OLYMPIA COUNTRY CLUB & GOLF COURSE

PAR 71

3636 Country Club Dr NW  
Olympia, WA 98502

360-866-7121

Nestled in the tall firs, overlooking Budd Inlet, sits one of the hidden gems of northwest golf. Sprawling over 6200 yards through tight tree lined fairways Olympia's 18 championship holes have played host to Olympia families for generations. Known for its tight fairways and lightning fast greens Olympia Country and Golf is a test for the most accomplished of golfers, but with four sets of tees, it allows golfers of all abilities to have an enjoyable round of golf.

The club offers excellent instruction from our staff of PGA professionals, an extensive junior golf program and active men's and ladies' groups. The club has club and personal cart storage on site as well as locker space. OCGC has a new fleet of sixteen EZGO carts that are available for rental by the ride, month or season.

<https://www.olygolfclub.com/Home.aspx>

## DELPHI GOLF COURSE

PAR 71

6340 Neylon Dr SW  
Olympia, WA 98512

360-357-6437

Located in southwest Thurston County, in the beautiful Black Hills in Capitol Forest. Delphi Golf Course is a nine-hole executive course, par 32 layout which measures just over 1950 yards from the men's tees and over 1790 from the ladies' tees. It is a relaxing and enjoyable layout to play while still offering a challenge to golfers of all abilities. This Course is regarded as one of the best courses in the area for beginners to intermediate golfers. People wanting a challenging game but not able to spend the 3-4 hours to play a full course will value this gem.

<http://premiergc.com/-jackson-park-golf-course>

## CAPITOL CITY GOLF CLUB

PAR 72

5225 Yelm Highway SE  
Olympia, WA 98513

360-491-5111

Opened in 1963, our championship 18-hole golf course boasts an outstanding traditional course design, with narrow, tree-lined fairways, well-positioned green-side bunkers and exceptional putting greens. With excellent drainage, our golf course provides the driest playing conditions in western Washington year-round.

<http://www.golfcapitolcity.com/#>

## SCOTT LAKE GOLF COURSE

PAR 35

11746 Scott Creek DR SW  
Tumwater, WA 98512

360-352-4838

# THURSTON COUNTY GOLF COURSES

## HAWKS PRAIRIE GOLF CLUB

PAR 72

8383 Vicwood Lane  
Lacey, WA 98516

360-455-8383

The Golf Club at Hawks Prairie offers two of the most unique golf courses in the Pacific Northwest. Outstanding course conditions at both courses, The Links and The Woodlands, and exceptionally friendly golf team members make it one of the best values for golf in the greater Seattle area.

## TAHOMA VALLEY GOLF COURSE

PAR 71

15425 Mosman Ave SW  
Yelm, WA 98597

360-458-3332

Located just 45 minutes southwest of Tacoma, Tahoma Valley Golf Course has garnered a reputation for being the driest course in the Puget Sound. The course boasts well-manicured greens that putt fast and true. The greens showcase the best of the Northwest's undulating, bump-and-run golf. Its location provides every hole with a stunning view of Mount Rainier. Just shy of 6,000 yards from the back tees, it's not an especially long layout but it is narrow enough to present a challenge. The wide fairways are forgiving, making it player friendly enough for beginners, and there are enough challenges to please high handicappers as well. With an abundance of mature trees throughout, Tahoma Valley Golf Course demands accuracy.

## SALISH CLIFFS GOLF CLUB

PAR 72

91 WA-108  
Shelton, WA 98584

360-462-3673

Located right on the property of Little Creek Casino Resort, Salish Cliffs was sculpted out of the Kamilche Valley by renowned course architect Gene Bates. The par-72 championship course will test your golf skills while exciting your senses as you traverse over 300 acres of lush bentgrass tees, fairways, and greens. Featuring stunning elevation changes of nearly 600 feet and surrounded by natural beauty and no homes, the course is challenging yet fun for all golfers. GPS-enabled golf carts, Titleist rental clubs, a fully-stocked award-winning golf shop, and a wonderful dining experience await your next, or first, visit to Salish Cliffs Golf Club at Little Creek Casino Resort.

# TENINO PARKS

Visit <https://cityoftenino.us/community/page/city-park> for even more parks!

---

## **BUCODA VOLUNTEER PARK • Centralia, WA**

Whether here for the day or for several days, the park has a lot to offer! Tent or RV camping, quarry House and picnic shelters, fire rings/pits, hiking, play structures, swimming in the Quarry Pool, athletics fields, and nature in general! Be sure to make a stop in the Tenino Depot Museum!

---

## **BORST PARK • Exit 82**

Fort Borst Park is the most significant park facility in the city system. Because of its size, central location, varied natural features and diverse recreational opportunities, Fort Borst Park attracts large numbers of local and park users. This well developed park is located at the confluence of the Chehalis and Skookumchuck rivers and is the home to the historic Borst homestead, schoolhouse, arboretum and Fort Borst Blockhouse.

---

## **BRIDGE STREET PARK • Bridge Street Park & Hayes Lake**

This centrally located site is strategically situated between Fort Borst Park and Rotary Riverside Park and may someday play an important role in trail development along the Skookumchuck River. Minor site improvements would enhance the public's ability to utilize this unique urban open space.

---

## **CHEHALIS RIVER DISCOVERY TRAIL • Goodrich Road, Centralia**

Explore the Chehalis River between working farmland and recently restored riparian habitat. Your hosts: a bevy of birds, from barn swallows to bald eagles. From the parking area, walk the gated access road past working farms and an old barn—notice the nesting swallows—to a T-junction at 0.3 mile. Pick up an interpretive guidebook and follow the signposts, first right, then back.

---

## **MILLERSYLVANIA STATE PARK • 12245 Tilley Rd SW, Olympia**

Millersylvania State Park is an 903-acre camping park with 3,300 feet of freshwater shoreline on Deep Lake. The state capital is a few miles north of the park. Conveniently located between Olympia and Centralia, this large, well-visited park beckons to adults and children alike. Millersylvania State Park offers fun for everyone. Spend a summer day splashing in Deep Lake. Gather with friends in an historic kitchen shelter.

---

## **MIMA MOUNDS NATURAL AREA PRESERVE • 12315 Waddell Creek Rd SW, Olympia**

The Mima Mounds Natural Area Preserve (NAP) was established in 1976 to protect rare examples of mima mound landforms and Puget prairie grasslands. The site includes a small Garry oak woodland and savannah (widely spaced oak trees with grass understory) and also supports a variety of prairie dependent butterflies and birds, and Douglas-fir forest. The NAP currently comprises 637 acres of grassland covered mima mounds, forest and oak woodland. In 1966, the National Park Service designated mima mounds a National Natural Landmark, for its representation of our Nation's natural landscape. The site is one of only 17 landmarks found in Washington State.

---

## **SCHAEFFER COUNTY PARK • 822 WA-507, Centralia**

14 acres-Located one mile north of Centralia (on Bucoda highway/State Route 507)- Picnicking, Skookumchuck River access, covered shelter, hiking, volleyball court, playground, fishing, horseshoe pits, group picnic area. Gates and restrooms open Memorial Day weekend through Labor Day. Day use only.

---

## **SOUTH COUNTY REGIONAL PARK • 212 Ray Rd, Toledo**

Boat launch, fishing piers, beach area, group picnic area, 17 acre pond open year round for fishing (as per WDFW rules). Gates and Restrooms open Memorial Day through Labor Day. Day use only.

---

## **WILBUR PARKINS PARK • End of Meridian Avenue at the Skookumchuck River, Centralia**

This undeveloped 5-plus acre site is located along the banks of the Skookumchuck River at the end of Meridian Avenue. Informal rustic improvements over the years are the result of the site's popularity with the community. This site provides gravel beaches and water access to some of the more secluded stretches of the river. Features fishing, trails, picnic tables, benches and open play areas.
